Memories of
the Occupation
in Greece

Presentation of the
learning environment

„Lernen mit Interviews“ (Learning with interviews)

The Center for Digital Systems (CeDiS) can draw on extensive experience relating to educational work on the basis of biographical interviews with contemporary witnesses.

Partner institutions:

„Lernen mit Interviews“

- Development and operation of an online learning environment on forced labour during the NS period

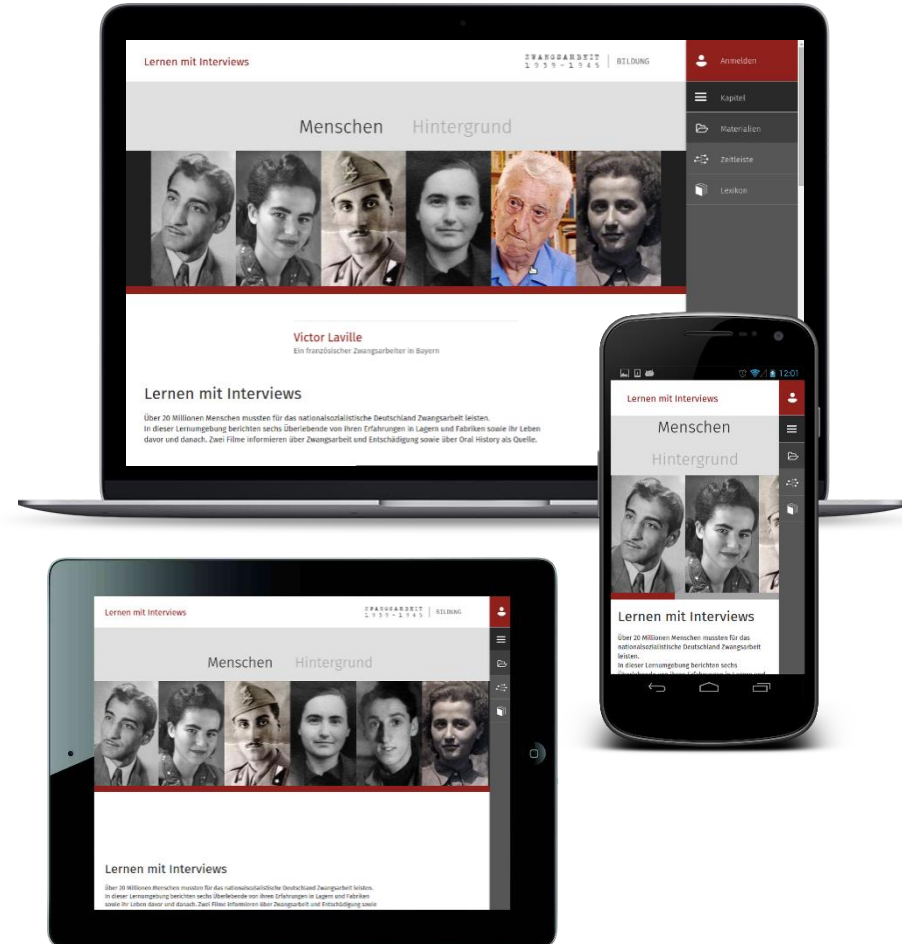

Assistance for developing independent country-specific contents:

- Germany 2016 (www.lernen-mit-interviews.de)
- Czech Republic 2016 (<https://nucenaprace.cz/>)
- Russia (August 2017)
- Poland (2018-2019)

The learning environment

Technology:

- responsive – can be used with different terminals
- no installation required, browser is sufficient
- access via internet, compatible with all systems
- data stored on centralized database
- updates by the editorial staff are possible at any time
- the same structure can be used for different contents
(see country-specific variants)

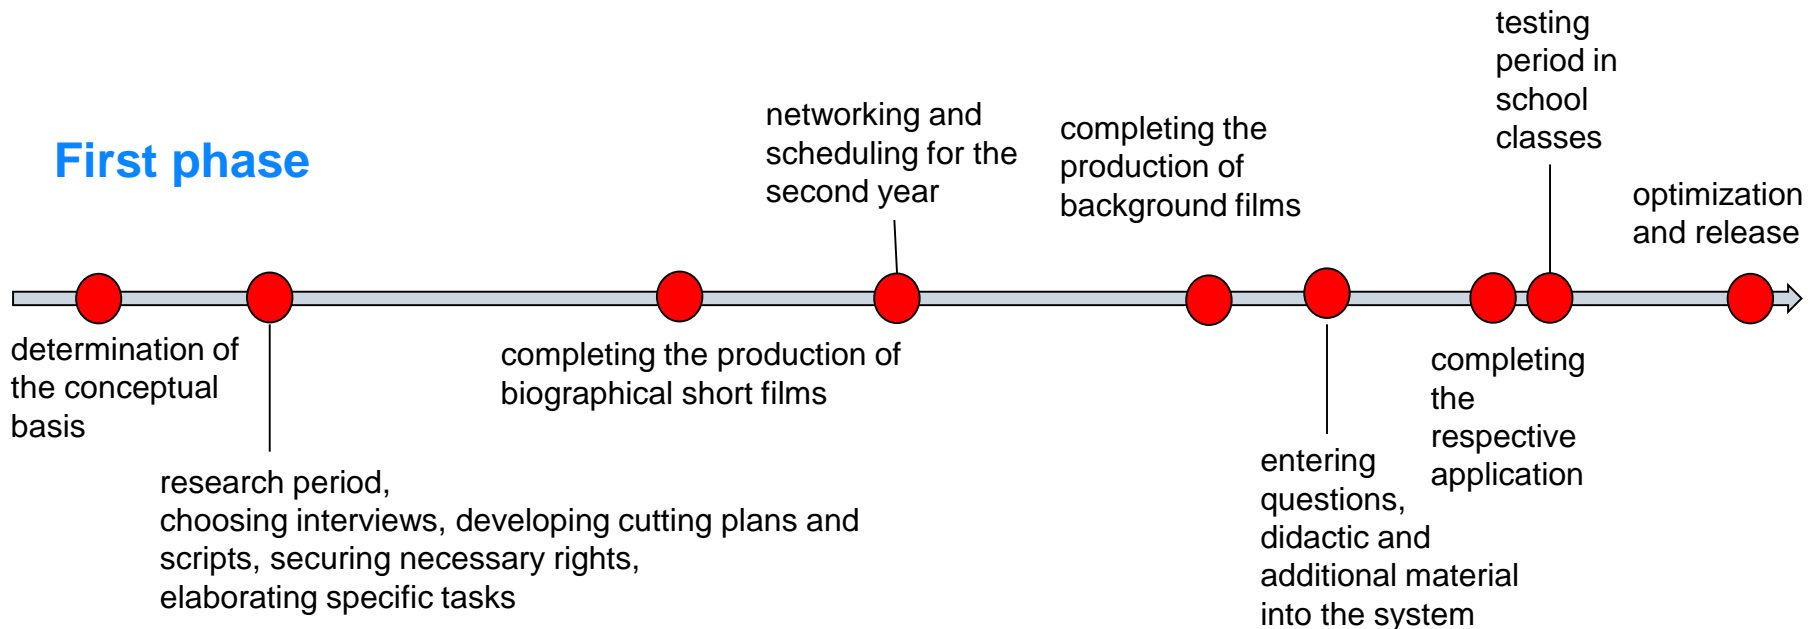

The project

1. Development of learning material based on interviews of Greek contemporary eyewitnesses of the German occupation

For Greece and Germany:

- in the respective language
- adjusted to the demands of the respective educational system
- considering the respective commemorative context
- provided with country-specific contents

First phase

The project

2. Events and training programmes

- training courses for teachers and multipliers
- student workshops in Greece
- public event to present the learning materials
- networking with educational institutions in both countries
- presenting the work results at scientific congresses
